For Presidential Electors, JOHN SCHILLING, WILLIAM A. PEFFER. R. W. P. MUSE,

HENDERSON RITCHIE Why for Anderson. The Republicans of Doniphan County are no ile to Mr. Morrill, or to any other candidate for that matter; but they are for Mr. Anderso for two special reasons. One is, that they do not want to see a man who has done his duty beater to spite somebody else. Senator Ingalls and his behave set themselves to work to defeat Mr. Anderson, because he took sides against the Senator, in the Senatorial fight; and Ingalls' friends, aided by those of Col. Phillips, who has not forgiven Anderson for getting the nomination over him, two years ago, are the persons wh have importuned Mr. Morrill to become a candilate, and obtained his reluctant consent. A Senator of the State of Kansas has no right to lictate who should or should not represent a particular District in the House. This District doe t belong to Mr. Ingalls, that he may use the sition of its Representative to reward his iends or punish his enemica. Mr. Philips also land his full share of honor from the District, and has no just right to kick because he was not kept a Congress forever. The other influence that is eing used against Anderson, is the Kansas Paeific Railroad. They want to be revenged upon him, because he introduced a bill to tax their railroad lands. They tell us that Anderson has done nothing, yet it seems that he has done e the opposition of this powerful corporation. This is a reason why the people old stand by him. That Railroad Cor owns hundreds of thousands of acres of land in stern Counties, for purposes of making money. The people of the West are poor, and many of them destitute, yet their sparse popula tion have to pay the taxes to defray County expenses, while this Railroad Company, with its and miles of land, does not pay a dollar taxes on them, but sets to work to defeat the Representative of the people because he has envored to make them share the public burdens ng to their means. If Mr. Anderson ha able to do but litte, he has done that little

Bismarck Fair. The National Fair, to be held at Bismarck Grove awrence, in September, promises to be the most ficient and successful Fair ever held in the State, in encouraging Kansas agriculture, art, nd industry. The managers have been working miefatigably for months to promote the enter ise, and are on the alert for anything that can add interest and attractiveness to the Fair. Their premiums are liberal in the extreme, and they ffer special inducements for County exhibits of farm products, fruit, &c. But large as the preminms are, a greater advantage will be the repu-tation the exhibits will make for Kansas abroad; for the Fair will be an immense one, and will be attended by people from all parts of the country.

for the people, and the people should retain him.

One feature we are pleased to notice in the Premium List, is premiums to encourage a hith-erto neglected business, as far as rewards are d-but a business that does more than all others to further the interests of Fairs. We refer to the newspaper business, in which the following premiums are offered: For the best Daily Newspaper printed and published in the State \$75; for the second best, \$30; for the best Weekly Paper, \$75; second best, \$30; best specimen of Job Work, in three colors, \$40; second best, \$20; en of plain Job Work, 830; second best, \$15. All job work must be printed in Kanoffices, and all newspapers must be published and pristed in the State. This cuts out the not be formished for two months previous to the opening of the Pair, and each file must contain at least two columns of editorials on the importance of the Fair

to the industries of Kansas. We believe that the Kansas Pacific Railway did once offer a premium of \$100, at a State Fair, for the best newspaper in the State, but never paid the money to the one receiving the award. THE JUDGESHIP .- Ira J. Lacock, of Hiawatha,

clines being a candidate for District Judge. This leaves Abijah Wells, of Senera, and Albert Perry, of Troy, alone in the race, outside of Atchison. David Martin, of Atchison, having been unanimously indorsed by the Bar, the other aspirauts in that city are virtually shut out of the race as they can get no delegates. The Republicans niphan County will support either Mr. Wells or Mr. Martin, if either should receive the nomination, but they think Mr. Perry's claims and. should have precedence. He is one of the soundest lawyers in the District, and is the oldest member of the Bar of this District, except it may be Judge Otis and Gen. Stringfellow, neither of in politics. He mentions some old horse-racer whom is a candidate. With the exception of a period of less than four years, Atchison has had e Judge ever since the admission of the State, in addition to the multitude of public offices she fornish men with equal qualifications, it is well enough to divide the favors around occasionally. Mr. Perry has such qualifications. Besides, his location is such that he would be in direct railroad communication with all parts of the District, and could reach any part of it in a few hours' time, in case of emergency; or, in such cases, persons could come to him from any part of the District, and return home the same day. one could come to him from any part Cases frequently arise, in which it is important to have easy and speedy access to the Judge Without saying a word against the ability or fit of either of the other candidates, we think Mr. Perry has the best claims for the office. There are two important elements that have

been largely Democratic, that will give Garfield a heavy support, this year. They are Jews and Catholics. For a number of past elections, there have been circumstances to earry the Jews almost unanimously against the Repub-lican candidates; and the Catholics have always been on the side of the Democracy. But Garfield is very acceptable to the Jews, and thousands will vote for him who have heretofore voted the Democratic ticket. The hanging of Mrs. Surratt, and Hancock's conduct in that affair, is telling fearfully against him among the Catholics, not withstanding all efforts to saddle the whole thing upon others, and to show that he was not to the usual majority. Forney having lost his grip, it makes no difference whom he is in favor of or blame. A man can perform his duty in a brutal manner, and this was what Hancock did in Mrs Surratt's case, to say the least. IP The nomination of Hancock has not set the
